

## Beverly Hills Specialty Dentists Nejad and Stanley Named To NCADV Domestic Abuse Advisory Council

Dr. Matt Nejad and Dr. Kyle Stanley of Helm Nejad Stanley Dentistry have been appointed to the Cosmetic and Reconstructive Support Medical Advisory Council of the National Coalition Against Domestic Violence (NCADV).

This highly-esteemed honor is reserved for the most qualified and respected doctors. The program works with the American Academy of Facial Plastic and Reconstructive Surgery and benefits domestic abuse survivors who would otherwise be unable to afford such crucial reconstructive care.

**“We are honored to have been chosen as the only two dentists on the NCADV Advisory Council,” stated leading cosmetic dentist Matt Nejad. “Being part of a team of experts committed to helping survivors of domestic abuse recover and move on with their lives is a real reward for us. This is an excellent opportunity to give back and make dramatic improvements in the lives of people in real need. We are very excited to provide our expertise in dental rehabilitation, and in some cases, dental surgery and full-mouth reconstruction.”**

The NCADV is the national voice of victims and survivors who have experienced domestic abuse. The coalition is a nationally recognized voice for "zero tolerance" for domestic violence.

Drs. Nejad and Stanley will help promote the Cosmetic & Reconstructive Support (CRS) Program, which offers survivors the needed cosmetic surgery or reconstructive surgeries to repair head, mouth, neck and facial injuries caused by an abusive partner.

One person every three seconds is physically abused by an intimate partner, and one in four of women and one in eight men have been victims of severe physical violence by an intimate partner. The NCADV works with facial plastic surgeons from across the country who volunteer their services to assist survivors in removing the physical scars of abuse.
